## Investing and Restoring the Pride in Kidderminster

### Our Plan For Kidderminster

Dear Resident,

This year sees major changes in our town centre: The re-generation of the former Magistrates' Court into a Creative Hub, bringing this historic building back to life. Which will bring both economic investment and employment opportunities.

The Connectivity Project will create a green and open space in the centre of town. With the work to demolish the former Woolworths and other disused buildings well under way, the new green space will enable access from the top of the town into the town centre, including access for those with mobility issues.

The site of the former Crown House is a further phase of the transformation of the town centre. The Town Council looks forward to working with the District Council on this part of the project.

As you will know, our Town Hall is now closed. It is due to re-open in the Spring of 2025, when we will have a fully transformed centre for arts and culture whilst retaining all of the historic architecture of this listed building.

We as Conservatives on the Town Council share the vision with the District Council to make Kidderminster a thriving town with facilities that will appeal to both residents and visitors alike.

A vote for your Conservative candidate in the forthcoming election is a vote for a councillor that will work on your behalf all year round, who will be there to represent you at Council and be a strong voice for you.

Yours,

**Clr David Ross**  
Leader of Kidderminster Town Council

# Our Plan For Kidderminster

1

## Regenerating our Town Centre

We will continue to work with the Conservative led Wyre Forest District Council to improve our Town Centre. Works are already underway on two major regeneration projects and we are excited to work with our Council colleagues to help shape the future of the Bull Ring and the former Glades site when these works commence.

2

## Improving the Town Hall

We are committed to delivering a fantastic new Town Hall, accessible for all and a centre of excellence for arts and culture. The current improvements project will leave Kidderminster with a Town Hall fit for the 21st Century whilst safeguarding our treasured heritage assets. The culmination of these works will leave us with a Town Hall the residents of Kidderminster can be proud of.

3

## Developing our Green Spaces

A Conservative led Town Council will continue to invest in our parks and green spaces, protecting them for future generations. We will continue to work collaboratively with Wyre Forest District Council to identify other parks and open spaces for Kidderminster Town Council to operate. The Conservatives will work with partners to safeguard the much loved padding pool at St George's park.

4

## Working in partnership

We will work in partnership with the District Council and the Kidderminster Business Improvement District, to promote our town and to attract investment to improve both the daytime and nighttime economy.

5

## Supporting community events

We are delighted to have supported so many community events over the last four years and we are committed to ensuring that these events continue to provide enjoyment to residents in the future.

6

## Protecting our environment

A green and clean place to live is important to us all. A Conservative led council will work with both the District and County Councils to protect and enhance our environment for future generations. We will seek opportunities to reduce our carbon footprint and to improve the air quality across our town.
